CORRESPONDENCE.

EDITOR BULLETIN:—There ought to be some enactment which would tend to stop the banana skin fiend from getting in his deadly work. Yesterday afternoon there were twelve pieces of banana peel on the sidewalk between Hobron's corner and the Gazette office entrance. Within ten minutes almost every one of them was the cause of a mishap. So prolific a cause of accident is the stepping upon a section of peeling that there are stringent laws, quite well carried out, in nearly all large cities against throwing them on sidewalks. There ought to be here. If a number of our legislators would walk along King street, between Fort and Nuuanu, they would be nearly certain to "take a tumble" to the evil lurking in the demure scraps of yellow, which break legs and necks and sprain backs, by the wholesale, and never crack a smile. Like everything else beer can be made in various ways. Some brewers are constantly figuring on how cheap they can brew. Of course they sell their product at a very low figure, but is it pure? Is it healthy? Seattle beer is brewed from the very best hops that are grown. A visit to the Criterion Saloon where this beverage is on tap will convince you.

Honolulu's warm climate is conducive of thirst to a greater degree than that of a colder zone. The average business man loses also, to a degree, the amount of energy and nervous force common enough in the bracing air of American cities. These two phases of our climate make it more necessary than elsewhere to stimulate the system with an invigorant. No more healthful or purer stimulus, or one more delightful to the palate, can be found, than Pabst Milwaukee beer. It is a delicious drink and is constantly on draught at the Cosmopolitan, Pacific and the Royal.
